## Core Services

<b>MBE Partnering &amp; Subcontracting</b>  Teaming support for Massachusetts public sector opportunities, supplier diversity participation, subcontracting alignment, and partner introductions.	<b>Technology Talent &amp; BA Services</b>  Business analysts, product owners, QA, data, reporting, full-stack development, cloud, integration, DevOps, and implementation coordination.	<b>RFP Strategy &amp; Response Support</b>  End-to-end RFP strategy, response drafting and review, solution narrative, use case mapping, LOE support, pricing inputs, and staffing plans.
<b>Project &amp; Program Management</b>  Project planning, delivery coordination, RAID tracking, stakeholder management, governance support, and operational execution support.	<b>Change Management</b>  Readiness planning, training coordination, stakeholder communications, adoption support, process change, and business transition support.	<b>AI Advisory &amp; Data Readiness</b>  Practical AI use case discovery, document review, workflow support, analytics, data quality, dashboards, and AI-ready data planning.

## Relevant Experience

<b>9+</b>	<b>\$2.5B+</b>	<b>11+</b>	<b>MA + Boston</b>
Years supporting state clients	Public funds supported by grant and subsidy platforms	State program environments	MBE-certified; SBPP-certified in Massachusetts

Relevant experience includes grant and subsidy payment platforms that support high-volume public fund distribution, with practical understanding of policy, operations, compliance, finance, reporting, and user experience. Experience also includes licensing, inspections, case management, provider and partner portals, document workflows, dashboarding, and public sector modernization support.

## How We Support Partners

Proposal & Pursuit	Project Delivery	Operations & Enhancement
End-to-end RFP strategy, opportunity shaping, response drafting and review, solution narrative, use case mapping, LOE estimates, pricing inputs, staffing plans, subcontracting language, and MBE participation support.	Business analysis, product ownership, project/program management, change management, QA, data/reporting, full-stack delivery, cloud, integration, DevOps, and stakeholder coordination.	Backlog analysis, release planning, reporting support, production support coordination, process refinement, data quality review, knowledge transfer, and user support workflows.

## Public Sector Domain Experience

Prodigi Consulting Inc. supports vendors and partners with agency-aligned technology and delivery needs across Massachusetts public sector domains. Our services apply to use cases in administration and finance, economic development, education, housing, labor and workforce development, public safety, technology services, veterans services, and health and human services program operations.

<b>Program Operations</b> Application intake, approvals, service requests, case workflows, provider or partner coordination, documentation, training, and day-to-day operational support.	<b>Funding &amp; Financial Workflows</b> Grants, reimbursements, subsidy payments, vendor payments, budget tracking, finance operations, audit support, and reporting controls.
<b>Digital Services &amp; Portals</b> Public-facing portals, partner portals, online forms, document upload, status tracking, notifications, and user-centered workflows.	<b>Data &amp; Reporting</b> Dashboards, operational reporting, data quality, performance metrics, executive reporting, analytics, and AI-ready data planning.

## Relevant Contract Positioning

<b>ITS75 - Software and Services</b> Software, SaaS/PaaS/laaS related services, implementation, customization, training, support, maintenance, and software implementation services. Prodigi can support implementation partners with BA, QA, data/reporting, integration, project support, and delivery capacity.
<b>ITS81 - Project Services and GIS</b> Relevant for project services such as enterprise data management, software operations/support, user-centered design and development, and related IT systems work. Prodigi can support staffing, analysis, delivery coordination, testing, reporting, and modernization activities.
<b>PRF76 - Management Consultants, Program Coordinators and Planners Services</b> Relevant for management consulting, program coordination, organizational planning, data analytics, education, and program advisory needs. Prodigi can support RFP strategy, project/program management, change management, use case mapping, and business process work.
<b>Carahsoft Partner Channel</b> Prodigi Consulting Inc. is a Carahsoft partner and can discuss partner-aligned public sector contracting paths where applicable.
